

COSMETICS & PHARMACEUTICAL

Through our collaboration with the leading companies of the sector, Slim Aluminium is able to offer both mill finish and bright finish for the **production of collars, actuators, ferules and caps.**

MARKETS

COSMETICS

Our finishing and rolling technologies deliver exceptional surface quality and formability, as well as excellent anodised or polished products, thus ensuring the satisfaction of the major leading companies in the market.

PHARMACEUTICAL INDUSTRY

Our product range includes aluminium for the production of delivery systems, with an excellent surface as well as very good designing and formability properties guaranteed by our finishing and rolling technologies.

Alloys Acc. to EN 573-3	EN-AW 1050A EN-AW 3003 EN-AW 3005 EN-AW 3103 EN-AW 5005 EN-AW 5657 EN-AW 8011A	
Temper Acc. to EN 515	H14, H24, H26, H28	
Thickness Tolerances Acc. To EN 485-4	From 0,3 to 1,0mm	
Width Tolerances Acc. To EN 485-4	From 25mm to 1500mm	
Surface	Mill Finish Semi Bright High Bright	Ra [µm] ~0,30 Ra [µm] ~0,10 Ra [µm] ~0,05
Mechanical properties	Acc. To EN 485-2	
Surface protection	On request paper interleave or plastic film	
Inner diameter reel [mm]	400/500mm	
Outer diameter reel [mm]	max. 1800mm
